

Scripts and Configs

Dependencies

The required dependencies include taskwarrior, pywal, starship, and rbenv. Youtube-dl is used in one of my script alias's but is not required.

```
sudo apt install taskwarrior
pip3 install pywal
sudo snap install starship
sudo apt install rbenv
sudo apt install youtube-dl
sudo apt install i3
sudo apt install i3blocks
```

Bashrc

- Bashrc - default with
- Homemade Utils - youtube-dl/PIA/taskwarrior/xrandr
- Power - alias's
- Shortcuts - alias's
- SSH - sshd alias's
- Workflow Setups - eclipse
- Infotainment - pywal/taskwarrior/custom Path for Term
- Script Init - creates blank scripts
- Shell Variables - default program definitions

i3

- Config
- i3blocks config

Credit for i3blocks scripts like cpuUsage, disk, mediaplayer, and memoryUsage
i3blocks

- Up Down Time - Macro for Time management project [WIP]
- CPU Usage - Displays system CPU usage
- Disk Usage - Displays system Disk usage
- Memory Usage - Displays system RAM usage
- MediaPlayer - Displays my vlc music or brave browser activity

login manager

- Slick greeter config - default

Monitors

DisplayPort0Restart.sh and startHDMI-0.sh connects my monitors with preferred settings using xrandr. These scripts are usually run on startup.

Script Init

This folder contains simple starting scripts in bash, python, and latex. No longer do I need to remember the shebangs!

Vim

Vimrc contains basic configuration and a theme I used. Shows numbers and lazy redrawing are enabled.

X

My .Xresources doesn't contain much except for my preferred font dejaVu sans mono oblique size 10.

Misc Scripts

Some miscellaneous scripts that I use is audioDownload.sh, videoDownload.sh, and notes.sh. Audio and video download utilize the utility youtube-dl. Audio download tries to get the highest quality audio while using the m4a extension to acquire as much metadata as possible. Video download just uses the default youtube-dl settings for highest quality. Notes utilizes the taskwarrior utility to creates fast notes. I run `task;` in my .bashrc to easily see these small notes.
